DISTRICT NEWS IN BRIEF

Municipal Hospital Is Opened at Elnora

Elnora, Oct. 7.—Two years after the vote was taken to erect a 16 bed municipal hospital at Elnora, the building was officially opened by Hon. Dr. W. W. Cross, minister of health, in a recent ceremony here.

DAVID URE, M.L.A. guest speaker, congratulated the hospital board on the fulfillment of its plans for the community hospital which includes a well-equipped operating room, an x-ray room, a sterilizing room and two case rooms.

The Rev. Mr. Kerr dedicated the

memorial plaques donated by the Elnora cigarette fund for those who made the supreme sacrifice in World War Two. The cigarette fund also provided funds for furnishings for the waiting room.

Dr. Cross stated that more time is being spent in hospitals now than in the past because of the increase in sickness and disease and hoped that people would obtain medical treatment before ailments became serious.

We now have a partial free hospitalization plan and hope for the time when all hospitalization could be free. If financing hospitalization could be removed, a lot of cases would be relieved.

After Dr. Cross' address, the public was invited to inspect the new building.

The hospital received the following donations from community organizations:

Rosinettes, from Collins Community Club; two lapetines from Cornwall Community Club; bed throws, from Lake View Community Club; fruit and vegetables, from Women of Elnora; pictures from the school of agriculture meet in Oltis this summer.

Yanks' Reserves Came Through in Clincher

Harry Orest, well known to baseball fans in Edmonton, took in all seven of the world series games between Dodgers and Yankees. He started yesterday's final from the press box of Yankee Stadium and has stirred other story for readers of The Edmonton Bulletin — Sports Editor

By Harry Orest
NEW YORK, Oct. 7.—Tommy Henrich said it all before the ball game. Henrich was standing around the batting cage waiting for his turn with the stick when a reporter asked him what he thought of the situation—in other words could the Yankees come through? Tommy said, "all season long this club has come through whenever it had to and I can't see any reason why today should be any different."

It wasn't any different. The Yankees had it at the right time and never looked better doing it. A championship club is no stronger than its reserves. That's been proven countless times, and it was proven again yesterday afternoon as New York defeated Brooklyn 5-2 in their 11th world series triumph. Two pinch hitters—Bobby Brown and Allie Clark—came through in the clutch, to drive in runs and relief specialist Joe Page allowed one hit in the last five innings to receive credit for the most important ball game the American League champions won all season.

OF COURSE there were many other contributing factors, such as Phil Rizzuto's two-base hit and two runs, two errors by the Yankees and Aaron Robinson threw in the first inning to stop Dodge's base runners and break up a rally that might have changed the entire complexion of the contest, and the steadiness of both Strinewitz and Rizzuto around second base.

HOWEVER the Dodgers did not go down without a fight, but they had left all their eggs in one basket for that matter as not a starter finished) was the amazing Hugh Hooten, who throttled the Yankees again yesterday but did it too late as a time when the Yankees could do nothing with Joe Page.

Typical of how the Brooklyn strategized through the game was the playing of 21-year-old Eddie Miksis in left field. Miksis, a utility infielder, was in left field after Page came into the ball game because Shotton, the Yankees' handed hitting power, and as it turned out he was a waste of time as the Yankees fifth man when he misjudged Johnson's towering fly and sent for a triple.

The Dodgers had lots of fight and hustle, but not quite enough experience, and most of all, they were able to extend the home team's seven games was a tribute to Shotton and his side.

THE SERIES was replete with outstanding feats and incidents which will stand out in the minds of the fans for a long time to come. Joe Page especially in the final game.

Max Bentley Grins As He Flicks in One of Five Goals at Edmonton Arena

Max Bentley, who has just finished shooting, and Doug Bentley (7) with his back to the camera.

The National League Chicago Black Hawks and their farm club from Kansas City went on parade before 3,450 Edmonton fans last night with the major-league triumph in front of the arena.

From left to right the players who scored for the Black Hawks were: George Hurnch, wearing No. 3; Max Bentley, who has just finished shooting, and Doug Bentley (7) with his back to the camera.

Joe DiMaggio, who almost won the 1940 series single-handedly, and Detroit Tigers, has drifted a long way down the hill. He had his worst out yet trying to get another hit in this year's classic.

BASEBALL'S love of the stadium was exemplified by the standard of the former "King of Swat" received the ball park in the seventh inning.

Among other things the faithful fans of the Yankees called it DiMaggio's two homers; the speed of Jackie Robinson, the great arm of Bruce Edwards, the tough luck hitting of Gene Hermanski, the battle of bunters and pinch hitters in the sixth game, and the four homers of Harry Lavagetto's game-winning double, and Bill Beavers who led the field in defense after a one-run lead.

The 1947 classic had everything. The Yankees who called it "vicer's series" wasn't far wrong. It was hard on the pitcher.

Rioting Prisoners
"Ruled" Jail Guards

SUBURRY, Ont. Oct. 7.—(CP)—A "committee of 19 prisoners," led by a convict with two more weeks to serve on an assault charge, ran Burwash industrial farm for three hectic days during a prisoners' "strike" which was broken only by police with tear gas bombs, prison guards told newspapermen Monday.

GUARDS RELATED how the committee, headed by Raymond (Duke) Quinton, of Windsor, Ont., took over the farm following a raid that accompanied the attempted escape of five prisoners from the institution last Wednesday night. Burwash appeared normal Monday with prisoners back at their jobs. But a strong detachment of

the story of the rule of the prisoners and guards alike, commanding troops to move from one camp building to another to talk to the prisoners and keep them informed of events inside and outside its walls.

THE GUARDS CLAIMED they were powerless to resist the prisoners until they received authority to use tear gas. Meanwhile prisoners roamed about the farm enclosure at will, harrying their cell block with beds and benches. From a commandeer's typewriter in the guards' room the "committee" typed out ultimatums to the guards and issued instructions to the prisoners, the guards related. Answered by Deputy Minister C. F. Neumann of the department of reform institutions that their grievances would be heard if they returned to their cells, the prisoners refused, holding out until the tear gas forced their surrender.

Meanwhile the guards related

Mystery Deepens as 'Kidnap' Victim Is Returned to Home

TORONTO, Oct. 7.—(CP)—Albert Dorfand, object of a widespread police search after he was hustled from his North Toronto home early today by three men, two of whom were masked, returned home shortly after 3 a.m. in a large light touring car driven by a flash-browed man.

Three carloads of police had been called to the Dorfand home earlier in the belief that a man who had been kidnapped by men who robbed his sister-in-law, Mrs. Charles Dorfand, of \$25.

The driver of the car said Dorfand had requested to be driven home. He would be kept where he found him. A reporter asked Dorfand where

he had been and Dorfand replied: "Wise up, bud, wise up."

When you are right, are you to him and asked:

Dorfand, a central figure in a police investigation 14 years ago, had been hustled from his home by a trio and taken down a lane. Later his sister-in-law reported hearing a shot.

A short time later members of the family told police an unidentified man had phoned the house and informed Mrs. Dorfand that "we'll get you home" and that she should call where he found him. A reporter asked Dorfand where

Winnipeg Slaying
Baffles Police

WINNIPEG, Oct. 7.—(CP)—A murderer who came back to his home and cleaned up after his frenzied slaying of his wife, Elsie Frances Tasker last week was sought today by police as they continued their investigation into Winnipeg's first slaying with a year.

They were no closer to his identity, however, than they were Saturday when the fully-clad body of the attractive, 46-year-old divorcee was found in a pool of blood in a hallway in her downtown home.

Chief Constable Charles MacIver said that several persons have been mentioned following discovery of the three-married Mrs. Tasker's body but that no arrests have been made.

One person, however, has been "all but eliminated from the case," admitted he is the still-unknown "mad boy stabber" who early last month slashed 29-year-old Mrs. Jones five times with a knife after accosting her on a residential street. Miss Jones recovered.

Police believe Mrs. Tasker's slaying was an acquaintance.

Militant Decency
Need of Nation

VANCOUVER, Oct. 7.—(CP)—The only way to save the nation from decline is through articulate militant, individual decency, F. I. Spectator, and president of The Canadian Press, said here today.

He told members of ad and sales bureaus of the Vancouver board of trade that the evidence of decline in the standards of public opinion could be seen in all phases of Canadian life.

It could be found in decreased church attendance, increased criminal convictions, and the loss of political optimism.

PORT ARTHUR, Oct. 7.—(CP)—Harry Hogan was downed in aerial combat Monday by a flight of ducks—just before the tide.

Flying over Lake Superior's Red Rock area, the 23-year-old Lockheed operator, light, 65-horsepower craft was "piled on" by the birds, which sent it into a nose-dive into the lake, ended when the plane landed upside-down after a flip-over.

The "engagement" occurred about 7 a.m. when part of the fight crashed into the propeller and motor and one entered the cabin through the plane's landing door, hitting Hogan on the head and knocking him unconscious.

The plane went out of control and Hogan's next conscious moment came when the water of Lake Superior rushed into his cabin. He was able to scramble out and reach the underside of the wing, where he awaited rescue.

Newspaper fisherman J. Dampier of Nipigon had seen the "battle" watched the plane downed and then set out to rescue the survivor.

PORT ARTHUR, Oct. 7.—(CP)—Nude and suffering from exposure, William Tulkus, 15, was discovered early Monday on Cape Thunder by Thunder Bay by Jack Donnelly, pilot for the department of lands and forests.

A native of Port Arthur, Tulkus had been missing since Saturday when he last was seen rowing from Angus Island, where he was a constant lighthouse keeper. He is alleged to have left notes of instruction for the disposal of his effects. Discovery earlier Monday of his rowboat gave rise to fears he had been drowned.

Labor Act Backers

SAN FRANCISCO, Oct. 7.—(AP)—President William Green called on the American Federation of Labor yesterday to "march to the polls" in 1948 "to defeat every member of Congress who voted for the Taft-Hartley law."

Opening the federation's 82nd annual convention, the 29-year-old president predicted the delegates would "direct and order" that election day next year be set aside as a day to permit every worker to cast his ballot.

Green also denounced the AFL's position on his issue. He declared it was up to the delegates to take a stand on "maintaining the American standard of living in the face of the 'threat of continued inflation'."

Freight Increase
Means \$20,000,000

OTTAWA, Oct. 7.—(CP)—Canada's railways stand to gain an additional \$20,000,000 to \$25,000,000 in revenue through a 20-per-cent increase in competitive freight and express rates being put into effect Nov. 1, 2 L. Ralston, K.C., counsel for the Maritime provinces, said Monday before the Board of Transport Commissioners.

Mr. Ralston said this estimate was based on the railroad estimate—which he did not necessarily accept—that 10 per cent of their "traffic would be affected by the rate hike, which stems from the recent removal of price board controls over transportation rates.

On the basis of railroad figures, he estimated that \$200,500,000 worth of traffic would be affected by the Nov. 1 increase.

Mr. Ralston spoke as seven provinces moved for the suspension of the proposed increases, which came in the midst of the hearing by the board of a general application by the railroads for an overall 20-per-cent increase in freight rates.

Louise Overell
After Insurance

SANTA ANA, Calif., Oct. 7.—(AP)—The much publicized young lovers, Louise Overell and George Jacobs, had slipped quietly out of the limelight last night—both the litigation not necessarily over with their acquittal on charges of murdering her parents.

Overell, the 18-year-old "beauty" counsel, told reporters that she will press for collection under the double indemnity clause of \$100,000 policies on the lives of Pasadena financier Walter E. Overell and his wife, Beulah, who died aboard their yacht March 31.

Jacobs said the coroner returned a verdict of accidental death and that Louise had been acquitted. "I said litigation would be started against the companies if they refused payment and disclosed that Louise was contemplating the suit," one of which will be for at least \$200,000. He did not elaborate.

Louise was at the home of her uncle, Fred Jankovic, in Los Angeles and had definitely filed at the coroner's inquest after the jury read their passionate love letters developed into an open break—was preparing for a long auto trip.

CNR Launches
Passenger Ship

ESQUIMALT, B.C. Oct. 7.—(CP)—The N.S. Prince George first large passenger vessel constructed in Canada in the past 20 years was launched at the Vancouver Shipyards here Monday.

The 1,500-ton, 100-passenger vessel, christened the 1,500-ton Canadian National Steamship, was christened by the traditional bottle of champagne over the ship's prow. Company officials said they expected the 20-hour long voyage to be swift and ready for service about March 1962. It will operate between Vancouver and Alaska.

SERVING CANADIANS THROUGH CHEMISTRY

Chemistry?
...YOU'RE ASKING ME?

WHILE CHEMISTRY may seem to be remote, it is actually at your elbow every day, a science of unlimited practical uses.

Wearing apparel is woven from chemically-created yarns. Chemical fertilizers stimulate plant growth; insecticides check pest destruction. The water we drink is purified by chlorine.

Chemistry plays a vital part in modern medicine and in the treatment of steel, salt, soap, paint, nylon, "Gellophane" and plastics in all their colourful applications, are chemical products.

Yes, we live in a chemical world: with the C-I-L oval trade-mark as symbol of an organization devoted to serving Canadians through chemistry.

For instance...

NYLON

CHEMISTRY never stands still. First it comes, then it improves: 1. the new nylon yarns being 1 case in point. Now you're wearing even shorter nylon hose than you've ever seen, knit from nylon yarn—made by Canadian Industries Limited. Head Office, 1135 Beaver Hall Hill, Montreal.

Two Calgary Lads Injured In Explosion of Grenades

CALGARY, Oct. 7.—(CP)—Injured Sunday morning when one of the two horses they were riding across the Sarsse military range stepped on two hand grenades and caused them to explode, two young brothers were said to be recovering in hospital here last night.

They are John, 6, and James, 9, sons of Mr. and Mrs. T. J. Gaudin who live on a farm on the west side of the Sarsse range near the outskirts of Calgary. John suffered a compound fracture to one leg, and eye wound and other minor injuries. James suffered superficial injuries. Both were reported to be in "quite good" condition at the Col. Belcher hospital.

THE BOYS were riding two horses when they were herding their father's dairy cows over the military range. Mr. Gaudin was nearly in his car.

As the horses approached an old bombing pit, one of the boys kicked a hand grenade and it exploded. The frightened animals reared and tossed their young riders to the ground. Almost with the next step, the horse kicked another grenade and it too exploded.

It was while they were on the ground that the boys received their injuries, authorities stated.

Gardiner Doubts Packers Justified

WINNIPEG, Oct. 7.—(CP)—Agriculture Minister Gardiner yesterday told Winnipeg newspaper men that while strikes have served a useful purpose in society, he doubted "whether 12,000 employees and three employers in the packing industry are justified in allowing a dispute to result in a strike."

To "ride to Saskatchewan for a speaking tour, the federal minister said strikes had been "useful" in establishing the right of laborers to bargain collectively.

"The use of force in numbers... is no doubt justified against unions or corporations when the workers are not fair to labor."

The minister charged that in the country-wide Packinghouse Industry strike "from information available the employees are more responsible for there being a strike than their employers."

"It seems to me that conciliation should be compulsory in such cases and the use of compelling should be endorsed," he said.

Polo Quarantines Troops on Steamer

LIVERPOOL, Oct. 7.—(Reuters)—The Canadian Pacific Troopship *Arcturion* of Montreal arrived from the Far East Monday with an influenza quarantine case among the 2,300 army and air force personnel aboard. More than 26 contacts were unable to go home on leave and will be kept in quarantine for 21 days.

Markerville Girls Win Competition

A team of girls from Markerville won top honors in the clothing club competition eliminations held at Oids last week, while a similar team from New Island was runner-up in the food competition. Both teams will be sent to Toronto to take part in the national judging competitions conducted by the Canadian Council on Boy and Girl Club work in Toronto in November.

Miss Norma Meyer and Miss Karen Thompson were the successful Markerville entry. They were coached by Miss Beatrice Anderson, district home economist. Red Deer while the New Island team coached by Miss LaPrade was Miss Jean Gow and Lorraine Schatz.

This is the first year that a food project has been included in judging competitions and last year was the first time a competition had been held in the clothing division.

Charge Violation Of Law by ITU

CINCINNATI, Oct. 7.—(AP)—The American Newspaper Publishers Association today charged the International Typographic Union with violation of the labor-management relations act of 1947.

The charges were filed with the regional national labor relations board here by Cordon Williams of New York, general manager of ANPA, who said the action was authorized by the ANPA board of directors.

"The ANPA is not engaging in a union busting program," Williams said, and added:

"This step was taken... only after every effort on the part of the ANPA, through conferences with the executives of the ITU, to develop a relationship in harmony with the law of the land had failed."

"At its Cleveland convention held only a few days before the labor management relations act of 1947 became effective," Williams said in a statement, "the ITU adopted a policy of open defiance and violation of the law."

"If that policy affected only the ITU, the ANPA would not be concerned with it. But... it requires publishers employing ITU members not only to comply with the ITU to violate the law but to violate it."

Williams said that the penalty for any publishers failure to conform to the ITU policy would be a strike of his printers.

Newsprint Output At All-Time High

TORONTO, Oct. 7.—(CP)—Canadian newsprint production this year will reach an all-time record of about 4,200,000 tons, the newspaper committee of the United States, House of Representatives was told today in a statement prepared by the Newspaper Association of Canada.

This is an increase of 1,127,000 tons since 1935, the last year of war restrictions, and production is estimated to reach 4,600,000 tons by 1950.

The United States is getting nearly all of this increase and 82 per cent of the total Canadian supply.

The house committee, in the words of its chairman, Clarence J. Brown, Rep.-Ohio, is here to tell the Canadian industry "what our publishers are up against" in an effort to get a better supply.

The newspaper association statement, presented at today's opening session, put forward these additional points:

Probable shortage in United States demand of 5,000,000 tons is around 23,000 tons, or within five per cent.

United States demand, now at an all-time high, is expected, on the basis of the record since 1890, to develop a dip.

Consumers get 61 per cent of total world supply. Compared with pre-war averages, they are receiving an increase of 1,000,000 tons a year, while the rest of the world gets a decrease of 1,000,000 tons.

Existing world machinery is about 300,000 tons in excess of demand, but more than 1,500,000 tons are idle due to lack of raw materials and minor repair, chiefly in Britain, Scandinavia, France, Germany and Japan.

But Only a Peek

Newspapermen Get Peek At Royal Wedding Gown

LONDON, Oct. 7.—(AP)—Reporters and photographers were admitted to Norman Hartnell's fashion place Monday for a preliminary peek at Princess Elizabeth's wedding gown.

The photographers took no pictures and the reporters had little to report. They were sworn to secrecy until Nov. 26, the wedding day. The writers were invited so they would know something about the material.

THEY SAW THREE BOLTS OF CLOTH. One of the reporters started to feel a piece of the cloth, but the lady in charge said "no, no." It was draped across the royal's white rug.

The lady in charge said the gown-away gown was a new color. It was draped across the royal's white rug. The reporters will return later to see the finished dresses.

Work Stoppage Hits Shoe Plants

MONTREAL, Oct. 7.—(CP)—More than 1,500 shoe manufacturing employees in some 130 local plants staged a work stoppage Monday in what an official of the Quebec Shoe Employers' Association termed "an illegal strike called while negotiations were in progress."

As shoe workers milled the gears of the plants, charmed picket lines, well over 200 employees of Governor Mills Ltd. also quit their jobs in the big east end Parthenon Street knitting factory. Meanwhile, police were hurried to the various strike centers to prevent damage or injury, but in at least one case there were reports of minor scuffles while in another picket lines stood firm before a local plant and barred entry to willing workers.

Salmis was named "salmi" by the Romans who took it from the Latin word meaning "to leap," willing workers.

COME SEE AND DRIVE THE FRAZER MANHATTAN
-YOU'LL AGREE IT'S THE GREATEST NEW CAR VALUE!

The luxurious new Frazer Manhattan was announced only last March. Since then, the tremendous appeal of these big, beautiful, ultra-modern automobiles has built such a demand that production at Willow Run was doubled—then doubled again! But, more and more and more were ordered! Now, the factory is scheduling production at a rate seven times what it was five months ago. And the cars are bought by eager customers as fast as they reach our sales rooms! The Frazer Manhattan—the world's newest fine car—has become the world's largest selling fine car!

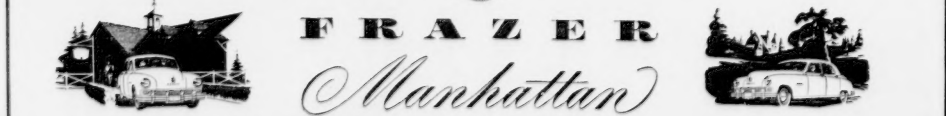

The reason for the phenomenal success of the Frazer Manhattan is simply that the modern public appreciates motor car values! You and every other experienced motorist know very well when you are offered a lot for your money. That is why we urge you to come in and inspect the world's newest fine car. You may think that "demonstrations" are a thing of the past—but they're not. We want you to drive this car before you buy any automobile at any price! Then you'll agree that it represents an overwhelming value for your new-car money. Here, in brief, is what you will find in the Manhattan:

A 100%-Postwar Fine Car—Like the KAISER and the FRAZER, the Frazer Manhattan is a 100%-postwar automobile—built in a 100%-postwar motor car plant. You will know better what this means to you in used car value if other manufacturers come out with postwar models next year!

Supreme Beauty and Luxury—that won the gold medal of the Fashion Academy of New York and the Grand Prix D'Honneur at both the Cannes and Monte Carlo Beauty Parades. No expense has been spared in making the Frazer Manhattan the world's finest postwar luxury car. Functional beauty of line; new, two-tone body colors; interiors upholstered in specially dyed, face-finished broadcloth by Borzay. Chromium window reveals; both seats more than five feet wide, roominess for its people—and their luggage; floor carpeted over deep padding.

A Ride You Have Never Known—Postwar engineering means a low center of gravity, a new weight distribution and a horsepower-to-weight ratio that adds up to performance and ride you have never experienced. Overdrive gives you amazing gas mileage at highway speeds. Try the ride!

We are getting our share of the vastly increased production of Frazer Manhattans—and are delivering now!
